🌐 linkedin.com/in/mokurdy 🐙 github.com/mohamediqbalghaffar (Product Showcase)

Targeted Summary: AI Solutions Architect, Operations Lead, and Systems Engineer with 7+ years translating executive requirements into hardened, production-grade intelligence and mission-critical architectures. Deputy Admin Manager at HTS-HQ (#1 enterprise in Halabja Group of Companies), directing enterprise digital transformation of daily operations and administrative workflows. Proven track record architecting and shipping 4 end-to-end production systems—including enterprise correspondence SLA intelligence, humanitarian GIS CRM, retail multi-branch ERP, and offline native Android applications. Deep expertise in Google Antigravity Agentic Workflows, Odoo ERP administration, Next.js/React full-stack engineering, and high-impact cross-functional execution.

CORE COMPETENCIES

Systems Architecture & Full-Stack

Next.js 15 (App Router), React 19, TypeScript, Tailwind CSS (RTL), Vite, Recharts, SheetJS / ExcelJS, RESTful APIs, Vercel Deployments

Agentic AI & Autonomous Workflows

Google Antigravity Agentic Workflows, Multi-Agent Reasoning Systems, LLM Prompt Engineering, Applied ML Models, AI Vibe Coding, Rapid Prototyping

Enterprise ERP & Operations

HTS-HQ Business Administration, Odoo ERP Administration (Inventory, HR, Approvals), SLA Monitoring, Standard Operating Procedures (SOPs), Paperless Digitization

Mobile & Geospatial Systems

Native Android (Kotlin, Jetpack Compose, Room DB), Offline-First Architecture, Leaflet GIS Mapping, Advanced Excel Modeling, BiDi/RTL Localization

Shipped Systems (Portfolio Spotlight)

- ▶ **Tracking Approvals (Next.js/TS):** Enterprise correspondence & SLA tracking with live TV kiosk feeds.
- ▶ **Charity NGO Web (React 19):** Humanitarian aid tracking CRM with 9-stage workflows & Leaflet GIS.
- ▶ **CRM & Warehouse ERP (Next.js 15):** Retail multi-branch stock ERP with COGS & thermal POS receipts.
- ▶ **Habakam Android APK (Kotlin):** Kurdish medication adherence app with voice alarms & Room DB.

EDUCATION

Bachelor's Degree in Teaching English as a Second Language (TESL)

University of Halabja | Halabja, Iraq

LANGUAGES

Arabic Prof. Working (KSA Align.)	English Fluent (TESL Degree)
Kurdish Native (Hawrami/Sorani)	Turkish Professional / Conv.

PROFESSIONAL EXPERIENCE

Product & Systems Lead / Deputy Admin Manager

Nov 2024 – Present

HTS-HQ (Halabja Telecom Services & Renewable Energy – Halabja Group of Companies) | Sulaimaniyah, Iraq

- ▶ **Executive Administration & Digital Transition:** Lead business administration for the #1 largest enterprise inside Halabja Group of Companies, directing digital transformation of daily operations and administrative tasks.
- ▶ **Correspondence & SLA Intelligence Platform:** Architected and deployed **Tracking Approvals** (Next.js, TypeScript, Tailwind, Recharts)—an enterprise correspondence intelligence platform with live SLA countdowns, TV kiosk feeds, and 83% compliance.
- ▶ **Enterprise Odoo ERP Administration:** Administered enterprise Odoo ERP operational modules, overseeing continuous workflow optimization, data architecture accuracy, and audit compliance across 5+ business units.
- ▶ **Agentic AI & Prototyping:** Leveraged agentic AI workflows (**Google Antigravity**, multi-agent reasoning, prompt engineering) to accelerate research synthesis, author specifications, and build functional enterprise tools.
- ▶ **Executive Analytics & Reporting:** Engineered dynamic HTML analytics dashboards and complex quantitative data models to monitor SLA metrics, track leadership KPIs, and eliminate operational bottlenecks.

Commerce Operations & Systems Specialist

Nov 2021 – Oct 2024

Bed Art Group (Retail & Multi-Channel Commerce) | Sulaimaniyah, Iraq

- ▶ **Retail ERP & Warehouse Architecture:** Architected and deployed **CRM & Warehouse ERP** (Next.js 15, React 19, TypeScript)—a bilingual Kurdish/English retail platform with multi-branch stock transfers and POS thermal receipt printing.
- ▶ **Automated COGS & Financial Analytics:** Engineered automated Cost-of-Goods-Sold (COGS), operational expense ratio analytics, and real-time break-even calculations across multi-currency transactions (USD & IQD).
- ▶ **Data Integrity & Closing Cycles:** Defined standardized validation protocols and inventory reconciliation routines, eliminating discrepancies and **cutting monthly accounting closing cycles by 35%**.
- ▶ **Merchant Discovery & POS Workflows:** Discovered merchant and retail friction points across POS registers and central warehouse inventory, translating operational bottlenecks into structured database and workflow specifications.

User Discovery & Field Research Lead (Enumerator)

May 2024 – Oct 2024

Islamic Relief Worldwide | Halabja, Iraq

- ▶ **User Discovery & Needs Analysis:** Executed structured field discovery across **1,000+ community beneficiaries**, translating qualitative interviews into structured data specifications (directly informing the 9-stage Charity NGO Web GIS platform).
- ▶ **Measurement & Quality Compliance:** Enforced quantitative measurement and data verification protocols, achieving **100% data integrity** adhering to international NGO standards and strict compliance guidelines.

Arabic Localization Specialist & Trilingual Liaison

Feb 2018 – Oct 2021

Halabja Glory Organization (NGO) | Halabja, Iraq

- ▶ **Arabic-First Localization:** Directed trilingual localization (Arabic, English, Kurdish [Hawrami/Sorani], Turkish) across official legal, administrative, and stakeholder document suites, ensuring strict regional terminology accuracy.
- ▶ **Stakeholder Alignment & Interpretation:** Facilitated consecutive interpretation and cross-functional alignment during international donor conferences, NGO partner negotiations, and community leadership assemblies.
